

As you may be aware, Anthem Blue Cross and Blue Shield recently notified the United Food and Commercial Workers Unions and Employers Health and Welfare Fund – Atlanta (“Fund”) that Change Healthcare, a vendor of Anthem Blue Cross and Blue Shield, was the victim of a cyber-attack on February 1, 2024. Though we have been advised that Change Healthcare quickly disconnected and shut down its systems, notified law enforcement, and began an investigation upon learning of the attack, some individuals enrolled in Anthem coverage may have had information compromised.

Change Healthcare has reported that it is possible that Fund participant and dependent personal information may have been accessed, including names, social security numbers, addresses, and driver’s license and other state ID numbers. In addition, health insurance information and personal health information, such as medical record numbers, medicine, and test results, and billing, claims, and payment information, such as banking information, payment cards, and payments made may have been accessed. The full scope of the cyber-attack is unknown at this time, and Change Healthcare is still working to identify the individuals affected by this attack. Further details about the cyber-attack are available at www.unitedhealthgroup.com/ns/health-data-breach.html or alternatively at <https://www.changehealthcare.com/hipaa-substitute-notice>.

Because Change Healthcare does not yet know which individuals have been affected, out of an abundance of caution, **complimentary credit monitoring services are being offered to all Fund participants and dependents enrolled in Anthem coverage for two years. To enroll in credit monitoring services, please call IDX, the entity providing affected individuals with credit monitoring services, at 1-888-846-4705 and ask to enroll. Alternatively, you can visit <https://app.idx.us/en-US/account-creation/protect>, and enter **2E49GM5TZ** when prompted to enter an enrollment code.** Since it is free and your data may have been impacted, the Fund encourages you to consider enrolling in this service.

Fund participants and beneficiaries also may wish to consider placing a fraud alert on their credit files. A fraud alert tells creditors to contact you before they open any new accounts or change existing accounts. You can call any one of the three major credit bureaus listed below. As soon as one credit bureau confirms a fraud alert, the others are notified to place fraud alerts.

Equifax	1- 888-766-0008	www.equifax.com
Experian	1-888-397-3742	www.experian.com
