

Good News! Due to the high volume of last-minute Health Screenings and online Health Questionnaires, the Biometric Screening and Wellness Program Deadline has been extended. **You now have until December 15, 2021, to complete your Biometric Screening or the alternative online Health Questionnaire. Results must be received by the Fund Office by December 25, 2021.**

An online Health Questionnaire can be completed this year as an alternative to the screening. If you prefer to take the online Health Questionnaire, you will need to register online at: [www.hmchwellness.com/ufcwatl](http://www.hmchwellness.com/ufcwatl). Once you log-in, click on “My HQ Report” from the homepage and then select “Take the HMC Health Questionnaire.”

If you do not complete a Biometric Screening or the alternative online Health Questionnaire by Dec. 15, 2021 (with screening results received by the Fund Office by Dec. 25, 2021), you will be charged a \$15.00 per week Wellness Program Surcharge if you become eligible for and enroll in medical coverage for 2022.

**FOR FULL DETAILS ON THIS YEAR’S PROGRAM GO TO: [atlanta.ufcwemprfund.org](http://atlanta.ufcwemprfund.org) then click on “Documents”**

**IF YOU ARE IN THE ANCILLARY PLAN:** If you will be electing Ancillary Only coverage in 2022 and you decide not to participate in this Biometric Screening and Wellness Program, you will not be charged an additional \$15.00 per week in 2022. However, if you qualify for and enroll in medical coverage for 2022, you will need a completed screening or online health questionnaire in order to avoid the \$15.00 per week surcharge.

**NOTE:** The **Biometric Screening & Wellness Program** is for eligible employees only. While we encourage your dependents to obtain their routine preventive care, they do not need to complete a screening.
